ABOUT

MSP-focused IT support technician with hands-on experience delivering L1/L2 support across multi-client environments using NinjaOne, ConnectWise Manage, and Datto. Performs weekly on-site visits, Active Directory administration, endpoint security management via SentinelOne, and Hyper-V / Windows Server maintenance. Holds a B.S. in Information Technology (ABET-accredited) from Kutztown University.

EXPERIENCE

PointSolve Technology, Inc. | Lebanon, PA | *Technical Support Technician* DEC 2024 - PRESENT

- Resolved 1,900+ support tickets across 100+ managed client accounts since Dec 2024 via NinjaOne RMM and ConnectWise Manage, handling a mix of remote and escalated L2 issues across diverse SMB environments.
- Serve as sole on-site technician across 3 recurring client sites (Swatara Township, Swatara Police, Londonderry Township), completing 112+ on-site visits since Dec 2024 for infrastructure support, hands-on troubleshooting, and proactive maintenance.
- Administer Active Directory environments including user provisioning, group policy management, OU structure, and security group maintenance across client domains.
- Manage endpoint protection and threat response using SentinelOne; monitor alerts, isolate compromised endpoints, and coordinate remediation with clients.
- Configure and support client network infrastructure including FortiNet firewalls and the full UniFi ecosystem (UDM, switches, APs, and management portal), handling VLAN segmentation, firewall policy management, and wireless deployments.
- Support Hyper-V virtualization and Windows Server infrastructure including patching, role configuration, and performance monitoring.
- Automate repetitive administration tasks using PowerShell scripting for user management, reporting, and system configuration.

All Lines Technology | Harrisburg, PA | *PC Deployment Technician* SEP 2024 - DEC 2024

- Executed large-scale hardware rollouts across multiple UPMC healthcare facilities, imaging and configuring end-user devices to IT standards.
- Integrated deployed devices into Active Directory, configuring user access, security policies, and network connectivity per UPMC compliance requirements.
- Conducted site surveys to verify asset deployment accuracy, assess technical requirements, and ensure seamless device placement across facilities.

Kutztown University | Kutztown, PA | *Help Desk Analyst* JAN 2022 - MAY 2024

- Resolved technical issues for students and faculty via phone, email, and ticketing, covering network connectivity, device configuration, and application support.
- Delivered on-site technical support for classrooms and meeting spaces, ensuring AV systems, workstations, and network equipment were fully operational.
- Performed remote network troubleshooting to identify and resolve user-side connectivity issues within the campus LAN environment.

PROJECTS

Enterprise Infrastructure Lab *Active Directory · Windows Server 2022 · VMware · PowerShell · pfSense*

Designed and built a multi-VM enterprise lab on VMware Workstation Pro simulating an SMB/MSP environment. Implemented corp.local domain with DC, file server, and workstation; deployed AGDLP-model OU structure, department security groups, DNS (forward/reverse zones), NTFS share permissions, and GPO security baselines via PowerShell automation. Phases in progress: network segmentation with pfSense/VLANs and Terraform IaC. Documented at github.com/NathanShutter/enterprise-infrastructure-lab.

Touch-And-Go *Raspberry Pi · AWS EC2 · MySQL · Python*

University fingerprint scanner attendance system using Raspberry Pi and LCD screen, with student and course data stored in a MySQL database hosted on AWS EC2.

SeatSense *IoT · Web Application · Saint Luke's Health Network*

Patient seating monitor developed in collaboration with Saint Luke's Health Network to alert caregivers of missed check-ins or excessive sitting time via a web application. Handed off to the health network for potential implementation.

EDUCATION

Kutztown University of Pennsylvania | Kutztown, PA

AUG 2019 - MAY 2024

B.S. Information Technology | ABET Accredited

Relevant Coursework: Computer Networks, Advanced Information Security, Unix Scripting & Administration, Computing Systems Integration, Data Mining & Analytics, Software Engineering

SKILLS

RMM & Ticketing: NinjaOne, ConnectWise Manage

Backup & DR: Datto BCDR

Endpoint Security: SentinelOne

Identity & Directory: Active Directory, Group Policy (GPO), DNS, DHCP

Virtualization: Hyper-V, VMware Workstation Pro

Server & OS: Windows Server 2022/2019, Windows 10/11, Linux (Ubuntu, CentOS, Kali)

Scripting & Automation: PowerShell, Python

Networking: TCP/IP, DNS, DHCP, VLANs, FortiNet, UniFi, Wireshark, pfSense

Cloud: AWS (EC2), Azure AD, DigitalOcean

Databases: SQL, MySQL, MariaDB, PostgreSQL
